Justin is THE BEST! We worked with Justin for our wedding and he did an amazing job! We met with him several times before the big day and each time he was prepared, on time and helped us create a detailed plan for the evening. Justin also went to the trouble of traveling all the way out for the rehearsal to see the space and plan everything out. Our wedding was in the country and Justin had no trouble setting up mics and speakers for the ceremony and of course came fully prepared for the reception. We didn't have a coordinator for the day, but we honestly didn't need one because Justin kept us on track the entire evening. Everyone enjoyed the music and had nothing but good things to say afterwards. We would recommend him for any event! He is worth every penny and we wouldn't change a thing if we did it all over again.
